

## **At Large Candidate – Senate 2017**

I am Steve Macho and I am a candidate for an At-Large position on the Buffalo State Senate. I am an Associate Professor in the CTE (Career & Technical Education) Department.

I started at Buffalo State in the fall of 2006 as an Assistant Professor of Technology Education in the Technology Department (as it was named in 2006), of the School of Professions. Since then, the Technology Education program moved from the Engineering Technology Department to the CTE Department within the School of Education.

I became active with international efforts in Asia (China & Thailand) in 2010, and conducted comparative education studies of Technology Education (funded by the Chinese Ministry of Education) in the following years.

More recently, I have served as a faculty advisor for the Advanced Manufacturing Certificate program (funded by NY DoL) which has served the needs of long-term un-employed women, minorities and veterans in Buffalo.

I am an Academic Delegate for UUP and have served on the Teacher Education Task Force since 2010. I have been the Chair of the Buffalo State Teacher Education Council since fall of 2015.

As an academic member of the institution, I believe I should contribute to the continued success of Buffalo State.
